

## Standard ECMA-285

### Protocol for Computer Supported Telecommunications Applications (CSTA) Phase III

#### 2nd edition (June 2000)

This Standard specifies application protocol data units (APDUs) for the services described in [ECMA-269](#), Services for Computer Supported Telecommunications Applications (CSTA) Phase III. The field of application of this Standard is the interconnection of switches and computers in a private telecommunication environment.

Phase III of CSTA extends the range of features offered by CSTA Phase II.

This standard also provides a Protocol Implementation Conformance Statement (PICS) Proforma to assist implementers.

Further information on the CSTA topic is also available.
