

Standard ECMA-208

System-Independent Data Format - SIDF

(December 1994)

This ECMA Standard specifies a logical format for information interchange and secondary data storage. The format provides a system-independent data format (SIDF) for the representation of primary file system information. This information includes, among other things, data, attributes and characteristics. This ECMA Standard specifies

- the organization of the information on target media,
- requirements for originating and receiving systems for the processing of the information.

The following files are provided in this set of CD-ROMs:

File name	Size (Bytes)	Content
ECMA-208.PDF	289'190	Acrobat PDF file
ECMA-208.PSC	1'011'741	Corresponding PostScript file

Printed copies of this Standard can be ordered, free of charge, from documents@ecma.ch. .
