

Standard ECMA-182

Data Interchange on 12,7 mm 48-Track Magnetic Tape Cartridges - DLT1 Format

(December 1992)

This ECMA Standard specifies the physical and magnetic characteristics of a 12,7 mm wide, 48-track magnetic tape cartridge, to enable interchangeability of such cartridges. It also specifies the quality of the recorded signals, a format - called Digital Linear Tape 1 (DLT 1) - and a recording method.

Together with a labelling standard, e.g. Standard [ECMA-13](#) for Magnetic Tape Labelling, it allows full data interchange by means of such magnetic tape cartridges.

The following files are provided in this set of CD-ROMs:

File name	Size (Bytes)	Content
ECMA-182.PDF	3'987'114	Acrobat PDF file

ECMA-182.PSC	3'831'894	Corresponding PostScript file
---------------------	-----------	-------------------------------
