ECMA TR/70

Product-related Environmental Attributes

2nd edition (June 1999)

This Technical Report identifies and describes environmental attributes and associated measurement methods related to the use of information and communication technology and consumer electronic products, according to known standards, guidelines and currently accepted practices.

The environmental attributes include:

– power consumption;
– emissions;
– data on materials;
– packaging data.

Although the attributes are listed without differentiation between product categories, it should be recognized that not all attributes necessarily apply to each product category.

The documented sample declarations in annex A may serve as guidance for the proper application of this Technical Report.

The following files are provided in this set of CD-ROMs:

File name	Size (Bytes)	Content
TR-070.PDF	210'471	Acrobat PDF file
TR-070.PSC	1'223'077	Corresponding PostScript file
